

Dear Chairman Powell and Commissioners,
We need more and better actual information on what candidates really stand for,
instead of just attack ads.

I haven't been bombarded with them since I live in Indiana although that simply
means that there is an election race happening in some states but not this one.
That's an issue for another debate.

Please require more coverage of actual election issues, candidate views, and
general public affairs so we know what we are voting for and vote intelligently.

Sincerely,

Danny
